**10.1 Overall conclusion on the level of compliance achieved**

It is concluded that non-compliance was found in 78 companies out of a total of 460 audited companies. From the 433 on-site evaluation and surveillance checks, it was found that three (3) companies did not send appropriate corrective actions, resulting in the non-renewal of the certification. According to the above, it is concluded that: a) the effectiveness of the control and certification system is established in terms of identifying cases of non-compliance and b) that the percentage of non-compliance is low.
